Who reads Deeside.com

Deeside.com is the independent news site for Deeside and Flintshire. Readers come to us for council decisions, schools, roads, health, crime, planning and what is happening in their town, and increasingly for live local information such as weather warnings, power cuts, fuel prices and train disruption.

A local audience you will not find anywhere else

National websites and social media ads reach people everywhere. We reach people here. In the last three months we were read by at least 25,000 people Google can place in Flintshire towns, plus more than 10,000 in Chester, Wrexham, the Wirral and the North Wales coast.

Nearly half of our visits come from people who type our address or use a bookmark: readers who check Deeside.com as a habit. Most read on their phones, and our audience is weighted towards people aged 45 and over.
